Eurag President
D. Jarre

Dear Dirk!

I read your letters with great pleasure. Thank you for your appreciation of our work. I am glad that the days of EURAG in Moscow were successful. I agree with you that the level of representation and depth of discussion at our forum on education were high. This helped us to form a clearer understanding of the role of education in the lives of older people and will provide an opportunity to prepare concrete proposals to the government of the Russian Federation.

I believe that the goals we have set have been successfully achieved. Thank you, all Federation members, for your support.

I regret that the circumstances surrounding my duties in the Federation Council did not allow me to devote more time to you and to meet your wife Anneli.

Part of me reassures information from Vladimir, that have you and spouse lies very extensive program in Moscow and Pereslavl. And you've got a large impression. I glad, that you've been a little bit Russian, although would 10 days and on 1 / 8 (from-for grandmothers).

I look forward to further business cooperation in the interests of older people in Europe.

See you soon!

V. Ryazansky
